Orthopedic & Body Support Solutions

Modern Lights, the manufacturing arm of Medica Lights, proudly presents a locally made product line of orthopedic and body support solutions designed for immobilization, alignment, and patient comfort.

www.medicallights-ksa.com

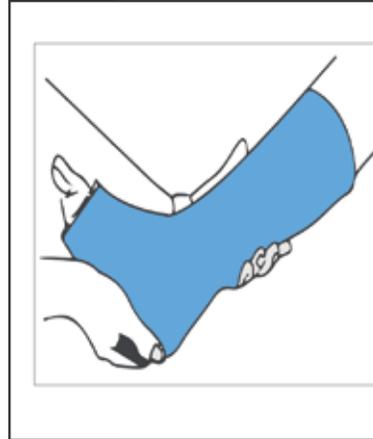

Hip Abduction pillow

Purpose: Maintains proper hip alignment post-surgery.

Features: Foam wedge with adjustable straps.

Use Cases: Post-hip replacement, femoral procedures, long-term care.

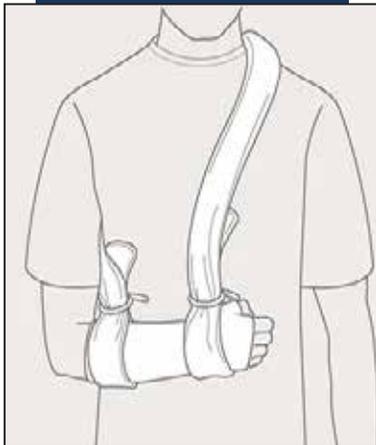

Cast Tape

Purpose: Long-term limb immobilization.

Features: Durable, breathable, lightweight; available in various sizes and colors.

Use Cases: Bone fractures, post-operative stabilization.

Cervical Collar & Cuff

Purpose: Supports cervical spine and upper limb.

Features: Adjustable, soft foam, washable material.

Use Cases: Neck strain, shoulder injuries, sling support.

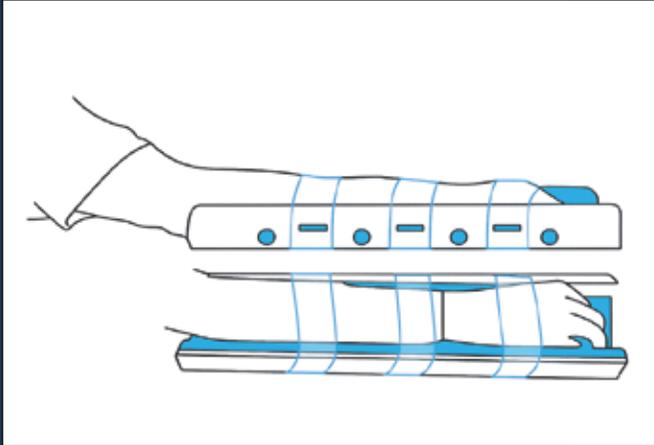

Edge Padding

Purpose: Enhances cast comfort and reduces pressure points.

Features: Soft foam rolls, hypoallergenic, latex-free.

Use Cases: Inside casts or splints, pediatric use.

Cardboard Splints

Purpose: Emergency and short-term immobilization.

Features: Disposable, easy to size and shape, economical.

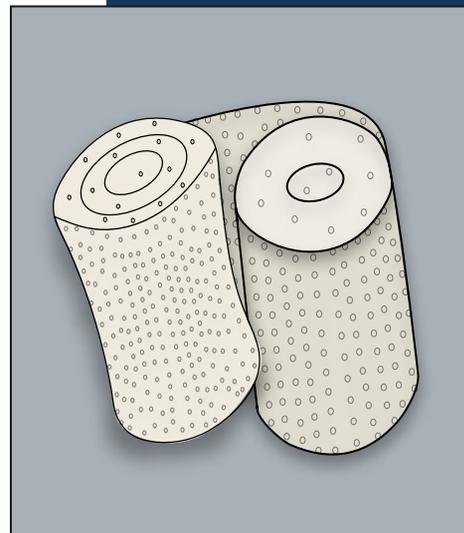

Use Cases: Ambulance kits, first aid, field use.

Skin Traction Kit

Purpose: Provides non-invasive traction to lower limbs.

Features: Foam-padded bandage, breathable, latex-free.

Use Cases: Pre-op alignment, orthopedic traction, pediatric orthopedics.

Splints

Purpose: Immobilization of limbs during injury or post-op care.

Features: Lightweight, padded, easy to mold and apply.

Use Cases: Fractures, sprains, orthopedic emergencies.

THANK YOU

Produced in Saudi Arabia and aligned with Vision 2030, our products reflect our commitment to quality, innovation, and supporting healthcare professionals across the Kingdom.
